CLASS DESCRIPTIONS

Circuit/Spin - A circuit class designed to push you in strength, cardio, and core endurance. After a 20+-minute circuit, you will be taken through a focused and challenging 20-minute ride on Wave's spin bikes.

Cycling - A stationary cycling class that applies a variety of training methods and motivational strategies. This class proves to be a challenging workout for people of all fitness levels.

Cycle Battle - Be prepared to sweat during this high-intensity full-body circuit class, that will utilize various equipment; including Wave's spin bikes and battle ropes.

Yoga Flow - A slower paced class that gives many different modifications to the traditional yoga theories of improving general flexibility, strength, relaxation and meditation.

Power Yoga - A powerful combination of traditional Ashtanga and Vinyasa practices. This class is suitable for all levels and is great for strength training and flexibility and will keep you feeling energized.

Pilates - A dynamic series of precise movements and exercises that enhance your natural alignment and elongate the muscles.

Tone & Sculpt - Low impact, light weight toning, sculpting and functional training for people of all fitness levels

UP! - Stair climbing will improve total leg strength and aerobic endurance. This class is geared to all levels of fitness. Using the stairwell in the hotel we do laps from Plaza to the 18th floor and back down for 20 – 30 minutes. You are provided with a workout of the day to follow on your own until you are done or until time runs out.

Body Blast - 45 minutes of strength training, using medium to heavy weights. Geared towards developing total body muscular strength and endurance.

Power Half - 30 minutes of straight out continuous strength training using medium to heavy weights. Focus is on proper technique and improved strength & endurance.

Stronger – Compliment your cardio with this traditional full-body strength training class. Lose body fat and build a stronger, leaner body.

MetCon - High energy metabolic conditioning circuit designed to improve your cardiovascular endurance and transform your body.

Total-Body Tabata - A dynamic total-body conditioning class using a variety of equipment including weights, bands, body weight, etc. with high intensity intervals followed by short rest breaks.
